EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Att. Williams on December 6, 2005.

The application has been amended as follows:

In the claims

Cancel claim 25.

Reasons for allowance

The following is an examiner's statement of reasons for allowance:

None of the prior art disclosed or suggested to show the particular structure and/or the particular operation recited in these claims namely: **"a circuit being other than an oscillator that includes: a first portion ... ; a second portion ... so that at said selected frequency said complex conjugate reactance substantially cancels said reactance of said resonant tunneling device"** as recited in claim 1; the method recited in claim 15; **"a second portion ... cancels said reactance of said resonant tunneling device"** and **"a clock signal source having a frequency approximately the same as the selected frequency"** in combination with "a first portion" as recited in claim 24.

Art Unit: 2816

The prior art references submitted by the applicant on IDS form received on 1/21/04 was reviewed and considered. However, similarly as noted above, the combination of the first portion and the second portion is not disclosed. Therefore, the claims are also patentably distinct over these prior arts.

The newly prior art reference cited on PTOL-892 is for interest and documentation purposes only. The Modell et al (U.S Patent No. 6,756,649) appears to be the best reference with respect to the claimed invention. However, the combination of **"a resonant tunneling device"** and **"a second portion ... cancels said reactance of said resonant tunneling device"** are not disclosed. Therefore, the claims are also patentably distinct over this prior art reference of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to My-Trang N. Ton whose telephone number is 571-272-1754. The examiner can normally be reached on 7:00 a.m - 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy Callahan can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
